

Bowflag® 100

Plug-in system
for curved
elegance

Indoor and outdoor
application

Variable exchangeable
ground fittings

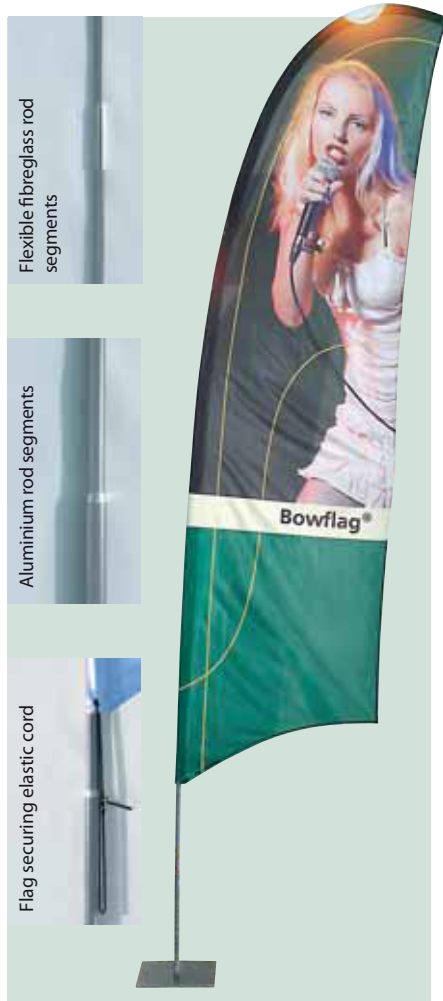

For selected shapes
positive images
on both sides
are possible

Bowflag[®] 100

Its sophisticated design, highest flexibility and easy handling make the Bowflag[®] one of the most commonly used marketing tools for events.

Various shapes and heights up to 5.2 m allow for eye-catching and expressive company and product presentations.

Please note:

To avoid damages please only use single sided Bowflag[®] 100 up to wind force scale 6 bft and Bowflag[®] 100 double sided up to wind force scale 4 bft.

Tip:
Bowflag[®] T –
table sail in stylish
drop shape

With a total
height of 55 cm, it
is one of the „big“
small advertising
materials.

Advantages

- Full usage of advertising space, as sleeve for rod is part of the printed flag material
- Rod segments are hidden in a sleeve made of flag material
- Sophisticated plug-in system of narrowing aluminium rods, coated to prevent staining
- No hassle with sliding down or breaking rod segments
- Bases with integrated swivel, allowing the flag to move 360° with the wind
- Variable exchangeable ground fittings
- Variety of sizes and shapes
- Easy assembly within 3 minutes
- Usage of proven flag materials
Multiflag[®], Varioflag[®] A and Varioflag[®]

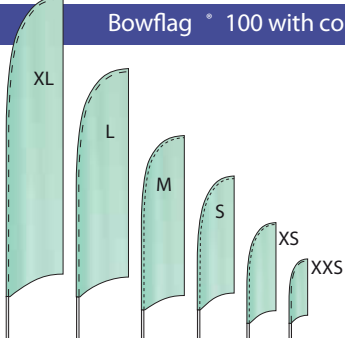

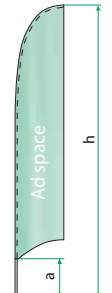

Double sided banner

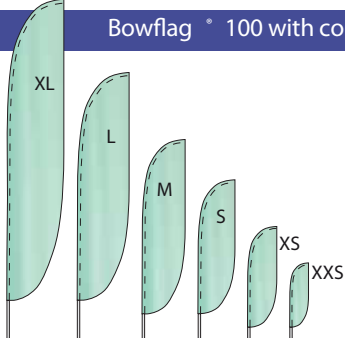

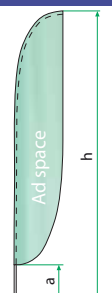

For selected shapes (please look at the right side) positive images on both sides are possible by using double sided banner.

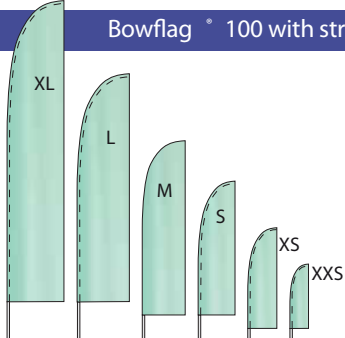

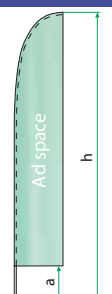

Elements

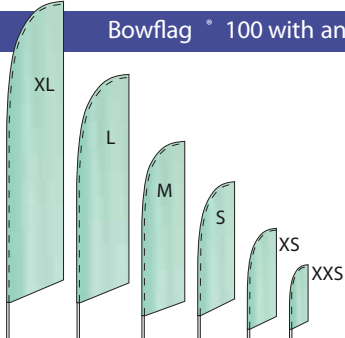

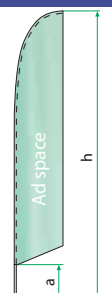

Size	Elements
